

Erik Peteri

Computer science student

I'm a second-year computer science student at the University of Helsinki, deeply passionate about programming. My primary interest lies in Full Stack Development, and I'm particularly eager to learn new things in this domain. I also have hands-on experience with various technologies, gained through coursework and personal projects. I am actively seeking internship or job opportunities to further improve my skills and contribute to real-world applications in this field.

EDUCATION

**Bachelor's Programme in
Computer Science**

GPA: 4.0 / 5.0

University of Helsinki

2022 - continuing

Matriculation Examination

Lyseonpuiston Lukio

2019 - 2022

SKILLS

Languages: Python,
Javascript, SQL, HTML/CSS

Frameworks: React, Django,
Flask

Databases: PostgreSQL,
SQLite, MongoDB

Other: Express.js, Node.js,
Redux, Jest

Tools: Git, WSL Ubuntu, CLI

Familiar with: DevOps, CI/CD,
Ruby on Rails, GraphQL,
Statistical programming in R

PROJECTS

Workout Logger App

React | Redux | Node.js | MongoDB | Express.js | Jest

I am currently working on a Workout Logger App, a project designed to help users track their fitness progress. The app is being developed using React for the front-end with state management handled by Redux. For the styling, I'm utilizing custom CSS to create an intuitive and visually appealing user interface. The backend is built with Node.js, and I've implemented MongoDB for efficient data management.

Luxury Watch E-Commerce Platform

Python | Flask | PostgreSQL | HTML | CSS | JavaScript

Developed for the course "Databases and Web Programming" at the University of Helsinki, this project simulates a luxury watch e-commerce platform. Through this project, I gained valuable insights into database design and learned crucial aspects of security in web development. This project also led me to become a course instructor for the same course, having received the highest possible grade (5).

WORK EXPERIENCE

Ramirent / Assistant scaffolder

2022/10 - 2022/11

- Supported scaffolding installation teams with crucial tasks.
- Assisted in scaffold assembly, material handling, and load securing.
- Collaborated with domestic and international teams for precise project execution.

Specsavers Rovaniemi / Retail Assistant

2019 (June, September)

- Managed store tasks, focusing on eyewear cleanliness and orders.
- Prepared and packaged glasses, communicated with clients.
- Provided customer service, addressing customers' needs.
- Conducted retinal imaging for military personnel.
